Portfolio mtl-landing.vercel.app

LinkedIn [mariateresa-linsalata](#)

Web-focused professional transitioning from data analysis into frontend / fullstack development, currently completing an intensive Fullstack Web Development course (HTML, CSS, JavaScript, Laravel/PHP, React). Hands-on experience building and shipping real web applications — from freelance client websites to booking platforms built with React and Sanity CMS, plus internal tools using HTML/CSS within enterprise systems at SGS. Uses Python and Power BI daily to build data-driven internal solutions, bringing an analytical, requirement-driven mindset to development work.

PROJECTS

2026
React ·
Sanity

bel-moves — booking platform

Booking platform delivered end to end for a private client: requirements, build, deployment. Built on a reusable React and Sanity foundation designed to be adapted client by client, with content managed independently through the headless CMS. MVP live at bel-moves.vercel.app.

2026
React ·
TypeScript ·
Vite

Eleva Tu Yoga 1:1 — trilingual guide & sequence builder (private, in progress)

Web app for yoga teachers, in collaboration with Venezuelan yoga teacher @eleva_yoga: structured class guide plus a sequence builder in Italian, English and Spanish. React 18 and TypeScript on Vite, content driven by a single JSON file, in-app AI translation through the Claude API. Screens and technical detail on the portfolio site.

2026
HTML ·
CSS · JS

Aventuro Yoga Studio — trilingual landing page

Landing page for an online yoga studio, built and shipped end to end: practice guide embedded in the page and downloadable as PDF, PayPal-based sign-up, custom IT/EN/ES language switcher, no build step. Live at mtl-landing.vercel.app/aventuro.

2020
LaTeX

Doctoral thesis typesetting

Full LaTeX typesetting of a doctoral thesis at Universitat de València: document structure, figures, equations and bibliography.

EXPERIENCE

Mar 2025 –
now

System Solutions Engineer

SGS — Notified Body 1639, Medical Devices · full remote

- Design and deliver customised system solutions on SGS in-house platforms for internal web-based applications serving the Medical Devices sector.
- Develop and maintain internal tools using .NET-based logic, HTML and CSS to build user-friendly, scalable web applications.
- Use Power BI daily to extract, transform and link operational data into reporting and BI dashboards.
- Design and manage database-backed applications, ensuring structured data models and traceability.
- Run iterative prototyping, coordinate end-user testing, and deploy to operational use; deliver training globally.

Dec 2024 –
Mar 2025

Data Analyst and Web Developer

Freelance

- Developed small-scale web applications and landing pages using WordPress, Bootstrap, and JavaScript.
- Implemented responsive design and cross-browser compatibility for client web projects.
- Gathered requirements directly with clients and managed projects end-to-end: planning, delivery, support.

Aug 2021 –
Dec 2024

Data Analyst

Insurance industry — full remote

- Requirements analysis, data exploration, transformation and quality validation.
- Built dashboards and automated analyses in Python (Jupyter) and Excel.

2019 – 2021

Coding Teacher — Scratch

Logischool + Montessori School, València

- Taught programming fundamentals in Scratch to students aged 6 to 14, adapting the same concepts across a wide age range.

Oct 2019 –
Aug 2021

Investigation Assistant — Data Analyst

Universitat de València, Spain

- Numerical computation, data processing and business-model development in MATLAB, Python, Excel.

Feb 2019 –
May 2019

Investigation Assistant

Universitat Politècnica de València, Spain

- Research on atrial substrate alteration in atrial fibrillation; ECG-based indicators developed in MATLAB.
-

Jun 2018 -
Jan 2019

Product Engineer — Technical Office

Elcam Medical Italy Spa

- Feasibility assessment, 3D/2D design, and collaboration with mold contractors on new product development.

SKILLS

stack	WEB / FRONTEND	HTML · CSS · Bootstrap · JavaScript · React · WordPress · Sanity (headless CMS)
	BACKEND	PHP · Laravel (in progress) · Node, npm, nvm
	DATA & ANALYTICS	SQL (advanced) · Python — Pandas, NumPy, Matplotlib · Power BI (daily) · Tableau
	TOOLS	Git, GitHub · LaTeX · Oracle, MySQL, PostgreSQL · Jupyter Lab, Colab, MATLAB

EDUCATION

2026
in progress

Fullstack Web Development Course

Aulab

- Frontend fundamentals: HTML, CSS, Bootstrap, JavaScript (DOM, functions, objects, arrays).
- Backend: PHP, Laravel (in progress). React already applied in freelance projects.

2018

Master's Degree, Biomedical Engineering

Alma Mater Studiorum, Bologna

2020 - 2021

CS50's Web Programming with Python and JavaScript — Harvard Online

2020

JavaScript and Vue — Udemy

2020

Command Line, Git, HTML, CSS, JavaScript, Linux — Devscola, Valencia

also

LANGUAGES

Italian — mother tongue
English — C2
Spanish — bilingual

SOFT SKILLS

Stakeholder communication
Problem solving & debugging
Fast, hands-on learner

BEYOND WORK

Yoga student and teacher,
RYT-250
